

NEW

Power Surge Kits

Underhill is announces 2 Power Surge Kits for Novo™, Sapien™ and ICC Decoder Modules™

- Applied in golf, commercial landscapes or Ag installations when pump stations are on the same power leg or in close proximity to the 2Wire product
- Cleans up dirty power caused by pump stations, remote power grids or generator power
- Two different power outputs depending on number of stations operated at one time, size of wire and length of 2Wire path
- Made for indoor environments but can be installed in outdoor pedestals or enclosures as part of a 2Wire system
- Easy to install
- Operates in 115VAC 60 Hz and 230 50 Hz ranges. Power cord not included
