

Underhill™ MAGNUM™

Solid Metal Industrial Nozzle

Do you know why your expensive "metal" nozzle isn't working the way it used to? Plastic internal parts that break, stick, and wear out. See for yourself...take yours apart. Then throw it away and get the nozzle that will be by your side for years, giving you the same beautiful pattern, day after day: Underhill™ MAGNUM™ solid metal, true fire hose quality hose end nozzle.

Specs

MATERIAL: stainless steel, zinc alloy, brass, Sanopreme® rubber

FLOW: 37 GPM at 80 psi

INLET: 3/4" hose thread
(1" brass adapter available)

Won't solid metal wear out, too? Well, eventually, maybe. But let's just say you'll probably wear out before your MAGNUM™ does.

Features

FIRE HOSE QUALITY

A hose end nozzle built right. Feels great in your hands, withstands any abuse...this is your nozzle.

SOLID METAL INTERNAL BODY

No plastic parts to break

RATCHET MECHANISM

Prevents over-tightening damage
