Remove & Replace Heads in **3** minutes or less

STEP 1

- Remove cap and inside components
- Insert telescopic rod to desired length into sprinkler body & fitting

STEP 2

- Place tool over rod and inside sprinkler body
- Rotate tool counter clockwise to remove body

STEP 3

- Place new sprinkler body over rod and into ground
- Push down and rotate tool clockwise to connect sprinkler body to pipe and remove rod

STEP 4

- Replace new sprinkler components and cap

THE ULTIMATE ALL-IN-ONE DEVICE FOR REPAIRS/MODIFICATIONS

RAISE SPRINKLER • OPTION

It's a snap with EasyOut™... Easily increase the spray head height to grade by removing the sprinkler and screw on a standard PVC or Cut-Off fitting to the bottom of the sprinkler. Add additional fittings to increase height.

SPRAY HEAD CAP-OFF • OPTION

EasyCap™ makes plugging off any unwanted sprinklers super easy & fast... A BIG labor savings.

Remove spray head and insert the EasyCap™ fitting (part # A-EO-05EC) to the bottom of the EasyOut™ tool and screw in the EasyCap™ fitting... that's it!

SPRAY HEAD DRIP CONVERSION • OPTION

Converting spray heads to drip using EasyOut™ tool is simple and fast.

Remove existing sprinkler

Attach drip tubing to 7mm barb drip fitting

Pass drip tubing through tool, Attach drip fitting to Hex on tool, Screw drip fitting/tubing to pipe
