

# 2WIRE

## DECODER MODULE

for **Hunter® ICC2** Controllers

**Controls Up To 48 Stations  
With One Module**

Our **ICC 2 Decoder module** snaps directly into the ICC2 module slot for new installations (2WIRE only) or ideal for hybrid systems (expanding existing multi-wire installations).

With over 200,000 field successes, **Underhill 2WIRE irrigation control systems** are a proven leader in converting controllers like the classic Hunter ICC and now the ICC2 to the simplicity and low cost of two-wire technology.

Installation is a breeze with our handy programmer, and after your system is in, you'll enjoy reduced maintenance cost and unbelievably easy system expansion.

**Our Famous Dependable/Affordable  
Decoders... Built to Last!**

## **Why Contractors Love Our 2WIRE Modules**

- *Converts Hunter ICC2 up to 48 Stations*
- *Uses Standard Irrigation Wire*
- *No Grounding Along 2 Wire Path*
- *Expand Existing Multi-Wire Systems Without Trenching Back to Controller*
- *Program Decoders in Seconds*
- *Very Affordable, Even on Small Jobs*

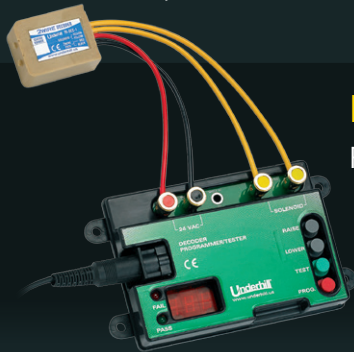

## FEATURES:

- Converts ALL Hunter ICC2's (plastic, metal and pedestal cabinet controllers)
- Grounding at the controller only (No field grounding necessary)
- Uses standard irrigation wire
- Operates up to 2 decoders at the same time

## USES:

- All New projects
- Expansion with 2WIRE/Multi-wire Hybrid

## Decoder Programmer

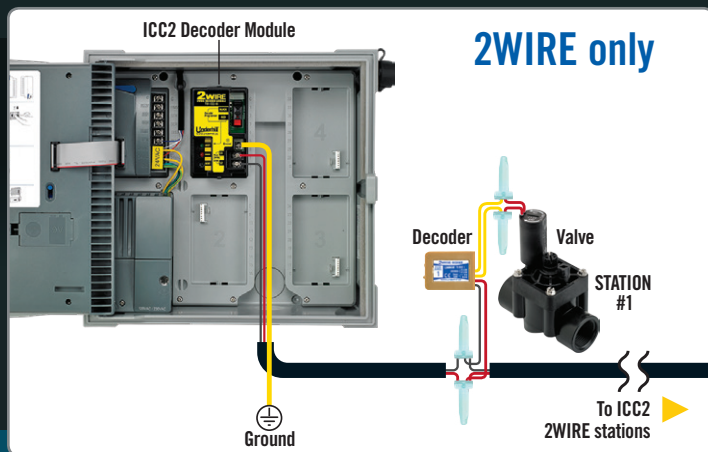

Programming a station decoder is as easy as pressing a few buttons. This unit can also test for correct station number programming.

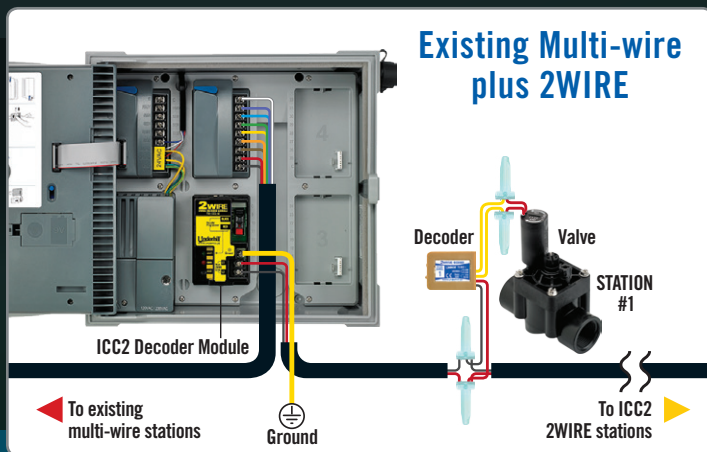

## Underhill Ultra Reliable Decoders

- No special wire needed
- No extra field grounding needed

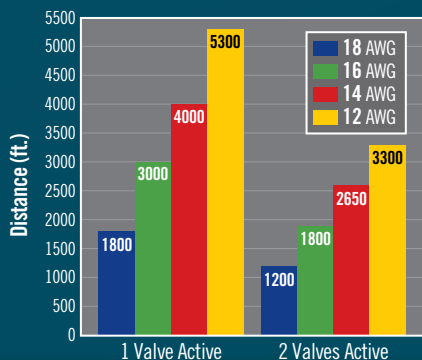

## New Installations

## Hybrid Systems

Maximum Distance From Controller  
Per Wire Gauge
