

Underhill® Novo™ 2WIRE Converter

NEW!

Converting your multi-wire controller to 2Wire just got much easier...

The Underhill Novo 2WIRE Converter is a true technological breakthrough, offering quick, easy and reliable conversion of existing multi-wire controllers to the simplicity and cost-effectiveness of two-wire operation. Ideal for hybrid systems (expanding existing multi-wire installations) or new installations (2WIRE only).

Compact, Simple, Affordable

Novo is designed to give **any controller** the superior features of 2WIRE decoder technology... incredible power in a small affordable package.

Easy Conversion Up To 63 Stations

2Wire is the future of irrigation control and you can start using it now with your favorite controller. Novo is packed with power to control 32 stations and can expand in 8-station increments up to 63 stations with optional Underhill 2Wire senders.

Features

- Easily adapts to any multi-wire irrigation controller
- Bold backlit graphic display
- Built-in electrical diagnostics/fault finding
- LightTouch™ button control

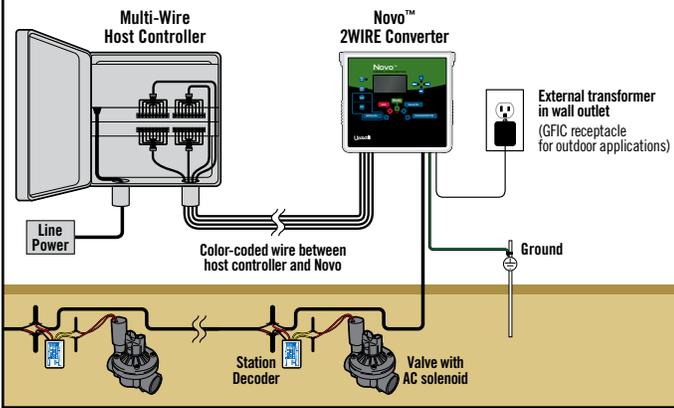

Uses

- New projects
- Expansion projects needing wire
- Retro projects with bad wiring
- Projects needing to add external devices such as soil moisture

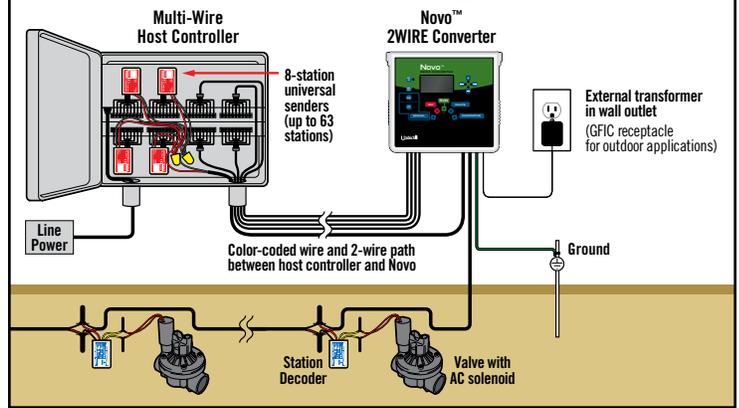

Underhill's ultra reliable Decoders!
No special wire needed.
No field grounding necessary!

Easy Installation: 1 to 32 Stations

Easy Installation: 1 to 63 Stations
